**69%**

Higher  
Productivity

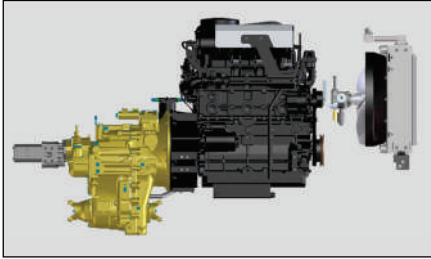

**1350 KG**

Per Bucket  
Cotton Seed Lifting Capacity

4 x 4 x 4  
4 x 4 x 4

4 Tonnes capacity  
Wheel drive  
Steering wheels

4 M. Turning Radius  
Equal wheels  
wheel brakes ensure safety.

### Reversible Fan

Advanced solution with dual-direction rotation. This innovation enhances cooling efficiency and ensures durability even in the harshest environments.

### Spark Arrestor

Essential device plays a role in safeguarding against potential fires in hazardous environments with explosive atmospheres.

### Improved Radiator

New design of radiator grill in rear to ensure easy cleaning of accumulated particles and maintenance and long uptime of equipment.

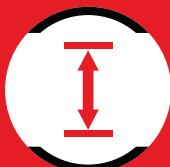

## Well Connected Machine

Our equipment features Easymanager, a telematics solution that streamlines Manitou fleet management. It provides real-time data, including working hours and location, for improved planning and optimization.

50%

More Productivity  
than other machines

7.6 m  
Lift Height

3.9 m  
Turning Radius

**Easy**  
MANAGER  
Money Saving

## Robust Structure

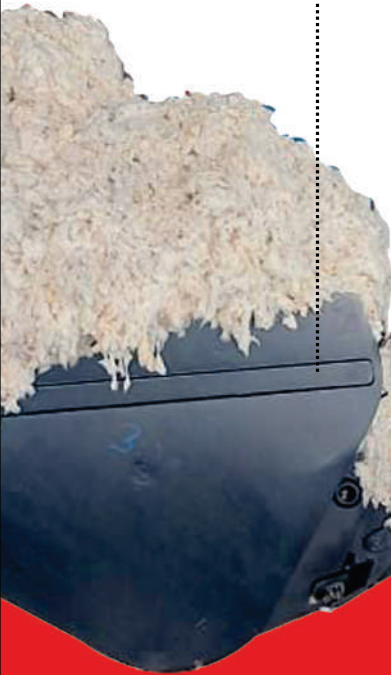

Several key components contribute to the equipment's durability, including a reinforced boom, sturdy steel mudguards, and a robust engine cover enabling to work on hardest terrains.

**42%**

More  
Productivity

**850 KG**

Lifting Capacity  
of cotton

## Battery Cut Off

During maintenance it is always advisable to apply the Cut off to avoid any electrical shock. Same applies during idle mode.

## World Class Aggregates

Premium components, including the Kirloskar engine, Dana Axle, Carraro transmission, and Casappa pump, guarantees extended uptime and maximizes equipment performance for superior output.

## Excellent Maneuverability

With 4WD and 4WS capabilities, our equipment offers adaptable steering modes, including crab steering, enabling optimal productivity even in confined spaces such as inside of plants and warehouses.

## LOW TCO

Lower Total cost of ownership is key priority for Manitou for its customers. MXT840 Industrial takes care the same by requirement of lower frequent cleaning of radiator and fan due to suitable design and higher fuel tank allowing for more uptime.

## Comfortable cabin

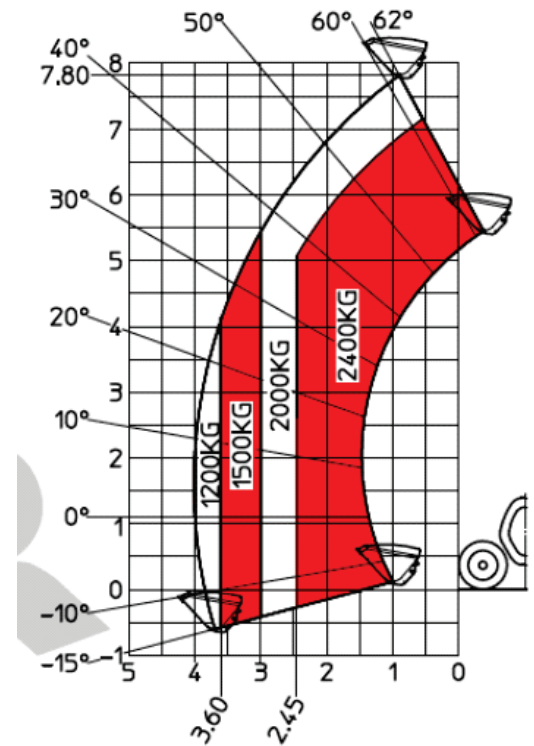

Simple controls, standard AC and ROPS/FOPS level II cabin ensure smooth and safe experience for operator in difficult industrial work sites.

## Seat Sensor

The machine stops moving forward & backward until the operator is seated due to seat sensor

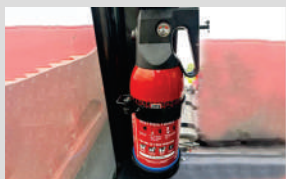

<b>Capacities</b>	<b>MXT 840</b>
Max. Capacity	4 000 kg
Max. Lift height	7.6 m
Max. reach	4.23 m
<b>Weight and dimensions</b>	
Overall length to fork carriage-L1	4.67 m
Overall width- b1	2.38 m
Overall height- h17	2.59 m
Wheelbase-y	2.58 m
Ground clearance -m2	0.37 m
Overall cab width- b4	0.85 m
Frame outer turning radius 9outside standard wheel0- wa1	3.9 m
Forks	1200x125x50 mm
<b>Engine</b>	
Brand	Kirloskar
Engine norm	BS-V
Model	4R1190THT BSV
Number of cylinders/ Capacity of cylinders	4-4760 CM <sup>3</sup>
<b>POWER</b>	
Max. torque	74.50 HP/54.80 kw 400 Nm@ 1200 rpm
<b>Hydraulics</b>	
Hydraulic flow rate	91.4 lpm/250 bar

Load chart with 3 cu.m bucket.

\*All the parameters mentioned above are with forks

- Below are the few optional accessories that can be supplied with the machine
- For more information on optional accessories kindly contact Manitou dealer or authorized partner

**Fire Extinguisher**  
Additional layer of precaution & in adherence to stringent safety protocols,

**Turbo Pre-cleaner**  
Quickly and efficiently filter out debris, moisture & dust particles.

**Camera Rear**  
view camera for ensuring safety & efficiency at tight spaced sites
